A Covenant Day School Program For TK and Kindergarten Students

### What is it?

In continuing our efforts to assist the families we serve, Covenant Day School offers C1, a bridge program for our TK and Kindergarten students who wish to remain at school until all other lower school grades are dismissed. During C1, students will enjoy fun & engaging activities centered around Biblical themes. Additional stories from other books will be featured as well. And just like our classes during the school day, your child will be with talented teachers who genuinely care about their social, physical, and spiritual development.

### Options, Options, Options!

Because we realize each day in the life of your family is not the same, students are welcome to register as a Regular Participant and attend anywhere from 1 to 5 days per week. Families who have children in Kindergarten that are interested in the 5 days/week option may want to consider enrolling in our Extended Kindergarten. We also offer an After School Enrichment Program for students in Grades 1-5. Please see the *Lower School Home* page on the CDS website or call the Lower School Office for more information about either of these programs.

Would you like to have the option of your student attending C1 once in a while rather than on a regular basis? No problem! Just submit the annual registration fee with a registration form that indicates you are registering your child as an Occasional Participant. Then, when you'd like your child to attend, call Shannon in the Lower School Office with at least 1 day's notice to find out if there is space and to reserve a spot.

Admittance to C1 is based primarily on need. Class sizes are limited, so please indicate on your registration form which days of the week your child will be in attendance.

### Fees & Stuff

For your convenience, you may choose how to pay the yearly fee. Option 1 is to pay for the entire year upfront by check. Option 2 is to have the yearly fee divided into 10 payments.
